**A PRAYER**

Lord, let me live like a Regular Man,
With Regular friends and true;
Let me play the game on a Regular plan
And play it that way all through;

Let me win or lose with a Regular smile
And never be known to whine,
For that is a Regular Fellow's style
And I want to make it mine!

Oh, give me a Regular chance in life,
The same as the rest, I pray,
And give me a Regular girl for wife
To help me along the way;
Let us know the lot of humanity,
Its regular woes and joys,
And raise a Regular family

Of Regular girls and boys!
Let me live to a Regular good old age,
With Regular snow-white hair,
Having done my labor and earned my wage
And played my game for fair;
And so at last when the people scan
My face on its peaceful bier,
They'll say, "Well, he was a Regular Man!"
And drop a Regular tear!

## Post Office Bids Will Be Opened Here Wednesday

WASHINGTON — The Kansas City Life Insurance Company has made an acceptable bid to finance the $620,000 post office building at Gainesville, General Services Administration announced Saturday.

The insurance company offered to supply the money for the lease-purchase project at 4.74 per cent.

The company also made acceptable bids on post offices and court houses at Abington, Va., and Biloxi, Miss., but at an interest rate of 4.78 per cent, slightly higher than on the Gainesville building.

The $24,490,000 Federal center in Dallas will be built under the same lease-purchase plan, with private financing and rentals going as payments toward the principal.

General Services Administrator Franklin G. Floete said the lease-purchase program is proving increasingly attractive to investors.

He stated the competition the past week among bidders of finance projects was evidence that the program is "going forward." Floete announced that bids have been scheduled for February on 13 projects with a total maximum investment of $7,180,000. Included is a post office at Daingerfield, Texas, costing $220,000. Bids on the Daingerfield building will be opened Feb. 26.

GSA will open bids on the McKinney post office on Wednesday, Jan. 22.

Floete predicted interest of financing concerns will remain as vigorous for the upcoming projects the next two weeks as on the previous projects.

"There is evidence that investors are realizing that lease-purchase projects not only are sound investments but also offer opportunities for public service," the GSA official said.

## Bryan Miller Talks "Lionism" To Local Club

Lion Bryan C. Miller, prominent Dallas civic leader and business man, addressed the McKinney Lions Club Wednesday noon, in observance of rededication month in Lions International. The meeting was held at the First Methodist Church, Lions H. G. Cooper and Garner Jones, leading the songs, and Lion C. M. Cooper giving the invocation.

**Lion Raul Saba, program chairman, introduced the speaker, who is a past president of the Dallas Downtown Lions Club, teacher of a Men's Bible Class, and active in various service and civic organizations of Dallas and North Texas.**

His talk on "Lionism," was pertinent, partly humorous, and most impressive.

Questions directed to the club were, in part, "what is it in Lionism that will make men get together to collect furniture for an old couple whose home has burned?", of "why do men go from door to door to sell light globes in an effort to raise $800 for the March of Dimes?", and many others. In answering he said "there must be something that would make men work together to render such service to others."

He next asked "Why do you belong to the Lions Club?", showing how it opened an opportunity for helpfulness to others.

**Lion Miller urged the rededication of the members to their club motto, by accepting their assignment in club projects; "man's life cannot be measured by days, months and years, but by his accomplishments; some accomplish in a whole life time what others accomplish in a very short time."**

Personal experiences and illustrations brought out the more serious points in the address as he outlined way to serve others, and the rewarding results.

Referring to the "Parable of the Talents," Lion Bryan impressed his hearers with their obligation to share their talents with their fellowman. Continuing he said "A slap on the back cannot be bought with money. Good will, love, devotion, confidence, patience, courage—the things that count most—can not be bought with money."

**In closing he emphasized "when you dedicate yourself to Lionism you dedicate yourself to service. If you cannot do that then you had better get out because it is a service club—not a civic and social club. How you can be a great Lion—you can live so that when you go out of sight, we know the direction you went because of the lamps you lit."**

Other guests for the day were Winn Jackson of Garland, guest of Vernon Walker; Bennie Dugger, guest of Lion Homer Dugger; Don Weaver Davis, guest of Lion C. W. Graves Sr.

The club welcomed W. D. Hankins, manager of International Harvester as a new cub, who was introduced by Lion Wilbur Thompson.

**COTTON DISEASE LOSSES HEAVY IN TEXAS LAST YEAR**

Texas cotton producers literally took it on the chin from a lot of sources in producing their 1957 crop. Floods, hail storms, insects and unfavorable weather during the normal harvest season all took their toll but, reminds Harlan Smith, extension plant pathologist, cotton diseases got in a lick and cut production in the state by about 10 per cent.

He says the stage average, however, doesn't tell the story because in areas where diseases struck the hardest, losses ran into ruinous figures. The three diseases which caused most of the damage were listed by Smith as bacterial blight, root rot and seedling diseases. These same diseases have been listed for the past six years as big troublemakers for cotton growers.

The specialist advises farmers to become familiar with the diseases most common in their area. This knowledge will enable them to plan a systematic control program. Detailed maps of the fields on which are shown areas known to be infected with cotton diseases are an aid in combatting this production problem. These spots or areas can be left out of cotton and handled in a different way.

There isn't much that can be done about most cotton diseases after the crop is up and growing. Here are suggestions from Smith on practices which have proved their value in cotton disease control. All planting seed should be treated; whenever available disease resistant varieties should be planted; cultural practices and crop rotations are of great value in control programs and he advises against mixing high and low quality planting seed. Low quality seed may be the source of infection of many diseases. No planting should be done until the soil temperature is 70 degrees F. for three consecutive mornings at a depth of three inches. The temperature readings should be taken around 7 a.m.

**OUTLOOK FOR CATTLE.**

Because employment and income should be high in 1958 and the slaughter of beef cattle should be a little less than in 1957, it appears that 1958 beef cattle prices should be a little higher than in 1957, says John McHaney, extension economist.

Here are three reasons Mr. McHaney gives for the good outlook fr beef cattle in 1958.

1. Due to improved range conditions, a strong demand has created for cattle to restock ranges.

2. The big 1957 feed crop has created a strong demand for feeders in the corn belt.

3. A very strong demand exists from consumers who like beefstak.

Over-all, beef cattle is one of the bright spots in the outlook for agriculture in 1958.

**OLEANDERS ARE EASY TO GROW.**

Oleanders are popular because they are attractive and easy to grow. Their ability to grow and flower well even in poor and dry soils makes them an ideal shrub for South and Central Texas. Oleanders are especially well suited for hedges, windbreaks and seashore or ocean-front plantings. They have been planted extensively in the coastal cities and towns of Texas.

A native plant in many parts of Asia, oleanders probbaly were introduced into the United States from Asia Minor. The leathery narrow leaves, 6 to 8 inches long, usually are dark green. Variegated varieties with yellow or white leaf markings are available. The large-growing plant, Nerium oleander, reaches a height of 20 feet or more. The sweet-scented oleander, Nerium indicum (sometimes listed as Nerium odorum), usually grown 8 to 10 feet tall. Terminal clusters of single to double, large showy flowers produce colorful effects.

Popular varieties are as follows:

**PINK.**

Apple Blossom
Double Rose Pink
Sealy Pink.

• • •

**BRIGHT RED.**

Single Red
Cherry Ripe
Compte Barthelemy
Jannoch.

Other varieties and the general culture of oleanders can be obtained along with other information in the bulletin No. L-317 at our office in the courthouse.

## NEWS FROM THE BOARD OF SUPERVISORS —of— THE COLLIN CO. SOIL CONSERVATION DIST.

John Wells, Chairman of the Collin Soil Conservation District, stated recently that he was forcefully impressed with the way clover could save our land nearly ten years ago during a flood. He says that while he watched a certain cotton field almost wash away, another field across the road had practically no runoff from this torrential rain because it had been growing clover. The clover roots had simply opened up the heavy soil, enabling even this downpour to be absorbed. Wells says that right then and there he became a strong booster for sweet clover as a soil saving and soil improving crop.

Much of our Texas blacklands area has been in cultivation 75 to 100 years. Until a few years ago, most of this land produced good crops and eroded at a slow rate. As tractors and heavy farm machinery came into general use, farmers noticed that a tight plow pan began to form just below the depth of plowing. Organic matter in our once highly productive soils was running low. Leading farm people observed that our heavy black soils needed something to make them spongy and mellow again. There became a need for a farming practice which would open up both topsoil and subsoil. Deep-rooted sweet clovers slowly became recognized for their remarkable ability to do this job, and they are being more widely planted every year.

The three varieties of sweet clovers being grown in the Collin Soil Conservation District are Hubam, Madrid and White Biennial. Hubam is a one year clover, maturing in four or five months after planting. Its greatest value is for short crop rotations. Madrid is a two-year, yellow blossomed variety. It furnishes a longer period for grazing, and does a very thorough job of soil conditioning because it stays on the land longer. White Biennial does not furnish as high quality hay or grazing as the other two, but it has extra hardiness and the ability to grow on thin rocky land.

At the start of the clover planting season, farmers will find a plentiful supply of seed locally. Experienced growers like to plant any of the three sweet clovers between Fbruary 15 and March 15. Soil tests show nearly all of our blackland soils to be low in phosphate, and clover growth will be increased during most seasons when fertilized with phosphate. The recommended rate is 200 to 300 pounds per acre of 20 per cent phosphate, or its equivalent. From 15 to 20 pounds of seed are usually planted per acre, and the seed should be inoculated according to directions on the can of inoculant. When buying clover seed and fertilizer, farmers may apply for Federal costsharing through their local ASC office.

## Chamber of Commerce . . . CORNER

From the beginning of organized society man has struggled with the problem of providing enough government to assure a peaceful and orderly community, while at the same time preventing the growth of government to the point at which it imperials personal freedom.

One school of thought is that government should own and control everything dishing out to the individual his fair share of wealth, commodities, and services. This system to the extreme is communism in which liberty and personal freedom are lost.

The other school of thought is for government to keep hands off of everything owning little if anything and very few if any controls. This system to the extreme allows certain individuals or groups to become so powerful the rights of the mass are sometimes abused.

Somewhere in between is the American way of life whereby government owns and controls the things that are to big for individuals, adjusts the power of monopolies, and leaves the ownership and control of most things to free enterprize. By this system of free enterprize with the profit motive there is no limit to the program of man.

We in McKinney have a good example of free enterprize and of good service rendered by private owned capital that are government owned and operated in some towns. We refer to our three utility companies, Texas Power and Light Company; Southwestern Bell Telephone Company; and Lone Star Gas Company. These companies offer the customer the best and most modern services available and at a reasonable cost. At the same time these companies pay a fair share of the tax load, local, state, and nationaly; participate in all civic projects; contribute to all charitable agencies; and give employment to a large number of people. These companies have grown with the community and are prepared to meet the needs of the community caused by any future growth.

Ten years ago Texas Power and Light Company had 3424 meters in use in McKinney, today it has 4217 meters and employs 33 people in the local office. In addition to this number this company employs another 103 people in the two generating plants and the transmission department who live and trade with us.

Ten years ago Lone Star Gas Company had 3301 users of natural gas in McKinney today there are 4224. This company employs 28 people in the local office.

Ten years ago Southwestern Bell Company had 3338 telephones in use in McKinney, today they have 5100 telephones in use and employ 57 people in the local office.

We in McKinney are very fortunate to have companies of this kind to serve us and can compare with any town we know of for quality of service, rates charged, and courteous treatment of the customer.

## Study Instructions Before Filling Out Income Tax Returns

Taxpayers often make mistakes that cause their income tax returns to be audited. The most common mistake is claiming a dependent the taxpayer is not entitled to. Nobody has any trouble making up their mind what should happen to the farmer who claimed Maud as a dependent for years before the Internal Revenue folks discovered thatt Maud was a mule. Generally speaking, quite a few folks don't claim a dependent parent who qualifies as an income tax dependent under the law simply because they haven't read the instructions. On the other hand, divorced parents frequently have both parents claiming one dependent. It can't be done. It is a mighty good idea to study the tax instructions before you fill out your tax return.

# G'ville Lions Edge Out M'K. By Score 33-32

By NORMAN SCOTT

Wayne Rosenbaum sank two free tosses in the final 29 seconds of play that enabled the Greenville Lions to edge the McKinney Lions, 33-32, at Caldwell Gym Tuesday night in a District 6-AAA tilt.

Rosenbaum, a 6-4 lad, who became eligible for last night's game, after scholastic difficulties, also accounted for five other charity pitches and two field goals, for a total of 11, that had a lot to do with his club's victory. His height also enabled him to snare several rebounds.

◆ ◆ ◆

**PETRICKA ON SPREE.**

Vic Petricka put on a one-man offensive show for the Lions in the final period to erase a Greenville three-point third period lead and it looked like the McKinney five had a 32-31 win in the bag with 47 seconds left to play but Rosenbaum was fouled by Don Jenkins on a questionable call and he calmly flipped the two winning free tosses through the net. Petricka connected on four FG's and three FT's to account for the McKinney 11-point output in the final stanza. Petricka had been off-form in his shooting,especially in the first half of action, but his fine display of marksmanship in the fourth nearly meant defeat for the Hunt County Lions.

◆ ◆ ◆

**13-12 G'VILLE AT HALF.**

After two hectic periods, Greenville was out front 13-12 at intermission. In the first canto, Greenville jumped off to a 7-0 lead on field goals by Ed Treadway and John Roark, and three free pitches by Sam Rackley. McKinney rallied on two FT's by Bob Byrd, one by C. W. Williams, and a FG by Jenkins while holding Greenville scoreless the last four minutes of the period.

In the second, Roark and Rosenbaum tossed in two charity shoots each, and Treadway added a FG for the Greenville scoring, while Jenkins accounted for three FT's and Byrd and Petricka managed FG's for McKinney's output before intermission.

Byrd put the local Lions outfront for the first time with a fielder in the opening moments of the third but Rosenbaum retaliated with two FT's for a 15-14 Greenville lead before Jenkins found the range for two straight baskets and a 18-15 Lion margin. Midway of the quarter, Treadway vaulted the Greenville crew back into the lead with three FT's and a fielder before Byrd connected on a one-hander from 15 feet to tie it up again, 20-20. Ken Burch added a FG and Treadway and Rackley chipped in with a FT each against a FT by Petricka to leave Greenville ahead, 24-21, at the end of the third.

The fourth quarter ended up in an offensive battle between Petricka, with his 11-point spree, and Rosenbaum and Treadway. Rosenbaum accounted for seven of the Greenville nine points in the ltast round on two FG's and three FT's, while Treadway added a lone FG.

◆ ◆ ◆

**TIGHT ZONE DEFENSES.**

Although the encounter was of the low-scoring variety of the day of high-scoring basketball, it was a thrilled, and the low offensive output was due to tight zone defenses employed by both fives.

◆ ◆ ◆

**PETRICKA TOP SCORER.**

Petricka ended up with a total of 14 and the game's top scorer followed by Treadway with 12.

**FT'S — DIFFERENCE.**

Actually, Greenville's accuaracy at the free-throw line meant the difference as they cashed in on 17 against McKinney's 10. The locals allowed Greenville only eight fielders but the charity tosses by Rosenbaum, in particular, spelled defeat for Coach Rusty Talbot's quintet.

McKinney will entertain the Gainesville Leopards Friday night at Caldwell Gym in their next conference outing.

# Lions 52-31 Win Sounds Warning To 6-AAA Teams

By NORMAN SCOTT

The McKinney Lions sounded a warning to other District 6-AAA members with a convincing 52-31 triumph over the Mt. Pleasant Tigers at Caldwell Gym Friday night.

◆ ◆ ◆

**LIONS TAKE LEAD.**

The Lions jumped to an early lead on field goals by C. W. Williams, Bob Byrd, and Charlie McTire in the first three minutes of play. Blackard tossed in two free throws for the Tigers before Byrd ripped the next on two successive one-handers from opposite corners for a 10-2 Lion lead and they were never in danger the remainder of the night. Vic Petricka added two FG's and McEntire a charity toss in between two baskets by James Stansell and a 15-6 margin for the Lions at the end of the first canto

Don Jenkins connected on a hook shot and a free toss in the early moments of the second period for a 17-6 Lion lead and by the middle of the stanza, the Lions were out front, 21-8, after Petricka added a FG and FT against a fielder by Thomas Hockaday. The Tigers came on with a flurry in the final three minutes before intermission to cut the Lion margin to 7 points but Jenkins swished a jump shot through the basket from around the free throw line area just before the half-time buzzer and the Lions leit the court with a 24-15 bulge after two periods of play.

The Lions outscored the Tigers, 13-7, in the third, to increase their lead to 15 points. Jenkins scored 7 of the points on three FG's and a FT, while Petricka found the range twice and Williams added two free throws. Hockaday and Stanzell accounted for the Tigers' third period scoring.

Jenkins continued his spree with four field goals in the final period, and with 1:40 remaining in the tilt, the Lions were out front, 47-26. Coach Rusty Talbot sent in his reserves who added the final five Lion points with Dennie Horn and Dixon Mooney connecting for FG's before the final buzzer.

◆ ◆ ◆

**JENKINS TOP SCORER.**

Jenkins, with 20, on nine FG's and two FT's, led the scorers for the night with Petricka next in line with 13. Stansell managed 9 for the Tigers followed by Hockaday with 6.

The Tiger B's salvaged their tilt with the Lion B's, 43-30. Jerry Kruse of the Lions topped the scorers, with 18, in the preliminary tilt.

## Rev. Reed Announces Segregation Crusade Rally Friday Nite

The Bradley St. Baptist Church will be host to a special Segregation Crusade Rally Friday night, January 24, at 7:30 p.m. Rev. Roy A. Heath, pastor of the Calvary Baptist Church of Denton will be the special speaker at this meeting. Rev. Roy Heath, has a daily radio broadcast over the Denton station on which he has continuously challenged the people to resist the Communist inspired social pressures toward race mixing, according to R. B. Reed, pastor of the local Church.

The local Bradley St. Baptist Pastor, who has been a vigorous crusader for what he calls "Bible Purity and Separation of the Races," announces that some amazing documents revealing treachery on the part of some political and religious leaders will be read. One will reveal the sworn statement of the principle of one of the Washington, D.C. High Schools about the terrible plight of integrated schools there since 1954.

Evangelist Heath said he also expected to bring some members of the Fort Worth Citizens Council, who assisted him in organizing a Citizens Council in Denton. In this rally it may very well be seen that McKinney might be blessed to have a Citizens Council for all who believe in keeping the races separate irrespective of their church affiliations, according to Rev. Mr. Reed.

The church and pastor urges the general public who are interested to attend this Bible Rally.

All 14 persons who were saved, including three children, were reported only slightly injured. They were taken to a hospital for treatment.

# "Voodoo" Jet Fighter Is Now Available

By JERE COX
United Press Staff Correspondent

ST. LOUIS (UP)—The "Voodoo" jet fighter, armed with an atomic rocket that can destroy an entire formation of enemy bombers, has become available to the defense of the North American continent.

The F101B Voodoo and its prime weapon, a rocket missile carrying an atomic bomb, were displayed Wednesday by officials of the North American Air Defense Command.

The Voodoo, a 1,200-mile-an-hour jet manufacturer by McDonnell Aircraft, and the air-to-air MB1 "Geni" rocket, produced by the Douglas Aircraft Co., were revealed for the first time.

The Geni, launched from the Voodoo, can wreak atomic destruction on an entire formation of enemy bombers without a direct hit, officials said.

"All the horribleness of atomic destruction can now be applied against high flying enemy bombers that they were intent on applying to those below," Col. Sydney Bruce told newsmen.

"We now have a weapon carrier that can go higher, faster, farther and thus intercept the enemy intruder sooner with more kill potential than any operational aircraft we have."

Bruce, an atomic expert attached to NORAD at Colorado Spring, Colo., also known as the "mayor of ground zero," said accidental explosions will be avoided by holding off on arming the Geni until the "last possible minute."

Bruce and four other Air Force personnel once escaped injury when standing directly below an aerial atomic explotion.

NORAD Deputy Chief of Staff for Operations Maj. Gen. Harvey T. Alness said an enemy attack would be met by a Voodoo-Geni retaliatory counter thrust.

The atomic weapon can be launched at high altitudes minutes after takeoff due to its long range vertically at supersonic speeds, Alness said.

Mrs. Velma Scott Hunter of Austin, has been a guest the past week in the home of Mrs. Alfred Scott Sr. and Mr. and Mrs. Tom Scott.

# R. E.(Romeo)Clements Is Candidate For County Commissioner

R. E. (ROMEO) CLEMENTS

I wish at this time to make my formal announcement for the candidacy for the office of Commissioner of Precinct No. 1, Collin County, Texas. Subject to the Democratic Primary to be held July 26, 1958.

I have lived all my life in this precinct. I am a Democrat and have always voted a straight Democratic ticket. I am married to the former Miss Rubie Barnes. We have three children. Robert, the oldest, is full time pastor at the First Baptist Church of New Home, Texas. Elster, our other boy, is a Supervisor with Texas Instruments in Dallas. Patsy, our daughter, is a teacher in the Dallas Public School System.

For several years I have handled a self-owned Hardware, Implement,, and Real Estate business in Princeton. This has given me experience in handling and operating a business and in meeting the public, which I think helps me qualify for the office of Commissioner for Precinct No. 2. I have also been a farmer for several years. For some twenty years I served on School and City Boards of Princeton. Several of the teachers that were hired while I was President of the School Board am still with the school. We enjoy the fellowship with our Baptist church and when called upon have always done what we thought was right.

I sincerely solicit your vote and influence in this campaign. If I am elected I will devote all my time and attention to your needs of road and will spend every penny you give me to see that the roads are maintained and improved.

Sincerely,
R. E. (Romeo) CLEMENTS.

# Farmer Dressed In Rags Is Very Rich Man

GOLDEN VALLEY, N.D. (UP) —Authorities today backed up the story of an eccentric 91-year-old farmer dressed in rags who said he is so rich he doesn't bother to count his money.

John Cruickshank, who lives like a hermit in a shack north of here, complained to Houston, Tex., police Tuesday that someone picked his pocket as he sat in a bus station.

**But Cruickshank didn't appear worried by the loss, and explained to police he was so rich he didn't even know how much he was worth. He said the pickpocket took $80 and his round-trip ticket to Mexico City.**

Houston police asked North Dakota authorities to investigate.

Officials here said Cruickshank's neighbors believe he is worth plenty. The best estimate is that the old hermit is worth at least $150,000.

Sheriff Harold C. Kietz said a Bismarck, N.D., banker told him Cruickshank has his wealth, spread around nine banks. However, he doesn't trust banks with all his money, the sheriff said, and has some of it hidden around his home.

**Kietz said Cruickshank also owns oil stocks and other investments which bring him a sizeable yearly income. He is said to carry as much as $5,000 in cash on his infrequent trips to town.**

Cruickshank left Golden Valley last fall, saying he was going to California and Florida. Word later drifted back to his neighbors that he had decided to add Mexico City to the itinerary.

# Armed Bandits Beat Proprietor

LINCOLN, Ill. (UP).—A statewide radio alert was broadcast Tuesday night by police for armed bandits who robbed an auto store and pistol-whipped the proprietor.

Police Chief Earl Minder said the gunmen entered the Burtshe auto store and robbed the owner, Henry Burtshe, of his billfold which was believed to contain a considerable sum.

After beating Burtshe, the bandits tied him up and made their getway, Minder said. The bandits were believed riding in a 1955 red and white auto with New York license plates.

Burtshe was reported in fair condition at Lincoln Hospital.

# Texas Woman Found Strangled

AMARILLO, Tex. (UP).—Mrs. Jennie Lee Gibson was discovered strangled in her home this afternoon by her husband when he came home from work.

Lawrence E. Gibson told police he found his wife's body about 5:30 p.m. He said he tried to call police, but found telephone wires to the house had been cut. He said he went to a neighbor's house and phoned in the report.

Police said they had arrested a suspect in the case, but refused to release any details or motive for the murder.

# Two Charged With Burglary

DALLAS (UP) — Charges of burglary were filed against two Dallas men who were routed by a sharp-shooting antique store owner Tuesday.

One of the men, Billy Cawthon, Dallas, was recovering from a bullet wound in the shoulder administered by Herold Gordon, 39-year-old store operator.

The other man is Paul Littlejohn, 24. Federal authorities said Littlejohn was on parole from a five-year sentence for smuggling marijuana across the border at Laredo.
